

Appeal to FCC

CC Docket No. 02-6

FCC, Office of the Secretary
445 12th Street SW
Washington, DC 20554

Re: Billed Entity Number: 145131
471 Application Number: 339377
Funding Request Number: 917567

After communicating with the parties involved with our new circuit it was determined that we filed an appeal under the incorrect spin number for MCI. The correct spin number for MCI should be 143001197. Since changing carriers for the current funding year there has been difficulties in gaining the correct spin number for MCI. After receiving the first denial we contacted our provider to determine if the number was correct. They determined that the first number they provided had two digits reversed. At that point we filed an appeal with the new number. According to the results of our appeal to USAC (dated January 22, 2004) to correct the number we still had an incorrect number. After working with the parties involved, the consensus that we reached is the correct MCI spin number should be 143001197.
